

An Open Letter from the Physicians of Arkansas to the Governor

15 November 2020
Asa Hutchinson
Governor of Arkansas

Dear Governor Hutchinson:

We are physicians practicing in Arkansas who have significant concerns as we watch the rising tide of COVID-19 cases in Arkansas. We are all voicing our opinions as individual citizens, and this statement in no way represents the institution where we are employed and practice medicine.

We are seeing ICUs full of COVID-19 patients. Our hospitals are filling up to the brim, and the virus is continuing to spread unchecked in our communities, meaning that the worst is approaching. Soon we will shoot past our capacity to care for patients. We will need field hospitals, the children's hospitals will need to take adult patients, and our ability to care for patients with routine emergencies such as trauma patients, heart attacks, and strokes will be greatly compromised. Healthcare providers will become overwhelmed and burn out, as many have already. We will see COVID-19 take the lives of many Arkansans, both directly and indirectly.

To prevent these mass casualties, as scientists and physicians we implore you to use your powers as governor to implement and enforce these interventions that have been scientifically shown to stop the spread of COVID-19:

- 1) Enforce a universal mask mandate.
- 2) All bars and gyms should be closed. Restaurant service should be limited to takeout only.
- 3) All indoor gatherings should be restricted to less than 10 people.

Finally, you have a Department of Health full of some of the most excellent minds in Arkansas who have been consistently offering you sound advice. We ask that you listen to these experts, follow their recommendations, and enforce their directives.

Governor, we are at a crucial point in this pandemic. Arkansas needs strong leadership now more than ever. We, the physicians of Arkansas, implore you to take the necessary steps to save lives, even if they are unpopular steps to take. Countless lives depend upon it.

Sincerely,

The physicians of Arkansas
